Coral Reefs

What's Below the Surface?

Anchored in the Facts

- 70% of marine animals are supported by coral reefs
- Only 0.2% of the ocean floor is covered by coral reefs
- Coral reefs reduce 97% of wave energy, protecting us from massive storms
- Coral reefs provide defense for over 63 million people
- Great Barrier Reef coral cover has gone down over 50% since 1980
- 75% of the world's reefs are threatened today
- 50% Decrease
- 0.2% Covered
- 97% Protect
- 63 Million Lives
- 75% in Danger

What is the problem?

Pollution
Overfishing
Rising Ocean Temperatures

Let's make a difference

Do Not Litter
Dive - Don't Touch!
Conserv Water, Prevent Runoff

Join the effort, save our reefs!
